

## **REMARKS**

### **Status**

This Amendment is responsive to the Office Action dated July 25, 2005, in which Claims 1-4 were rejected. No claims have been canceled; Claims 1 and 3 have been amended; and no new claims have been added. Accordingly, Claims 1-4 are pending in the application, and are presented for reconsideration and allowance.

### **Specification**

The abstract has been noted as including the term "said". Applicant has amended the abstract accordingly, and is now believed to be in a proper format.

### **Claim Rejection - 35 USC 103**

Claims 1-4 stand rejected under 35 USC 103 as being unpatentable over US Patent No. 6,345,260 (*Cummings*) in view of US Patent No. 5,995,937 (*DeBusk*). This rejection is respectfully traversed.

The present invention is not obvious from the cited references since neither of the references disclose a claimed feature of the present invention. More particularly, the feature of scheduling medical equipment based on the input of a zip code. As disclosed in the Specification on Page 3, lines 12-27, the medical equipment is associated with a zip code. When a user desires to schedule a procedure, the user enters a zip code corresponding to an area in which the user wishes to find the particular medical equipment. The software is then able to determine available equipment at a location nearest the user based on the zip code.

This feature is clearly claimed in independent Claims 1 and 3. Accordingly, Claims 1 and 3 are believed to be patentable over the cited references.

Claims 2 and 4 are dependent on Claim 1 or 3, and therefore includes all the features thereof. For the reasons set forth above with regard to Claim 1 and 3, Claims 2 and 4 are also believed to be patentable.
